**Duties:** You will serve as an electronics technician in support of the Digital Communications Satellite Subsystem component of the Defense Satellite Communications System (DSCS) network. You'll be responsible for performing technical analysis of DCSS Racks, SATCOM Equipment and/or Systems for other government agencies and associated contractors. Review/modify equipment/rack installation procedures and develop test processes and/or procedures for the integration of new satellite communications equipment into the existing DCSS DSCS network. Participate in formal In-Process Reviews (IPRs) by the presentation of oral reports both at TYAD and at sites worldwide. Perform pre-award surveys of prospective contractors plants to evaluate their facilities, considering manufacturing and production techniques, equipment, processes and suitability for proposed contract; make recommendations to the Procurement Officer.

**About the Position:** Tobyhanna Army Depot is the largest, full-service electronics maintenance facility in the Department of Defense with a total installation work force of more than 4,400. The depot's mission includes design, manufacture, repair and overhaul of hundreds of electronic systems for all branches of the Armed Forces. They include satellite terminals, radio and radar systems, secure communications, electro-optics, night vision and anti-intrusion devices, airborne surveillance equipment, navigational instruments, electronic warfare, and guidance and control systems for tactical missiles. For over 50 years, Tobyhanna personnel have built a tradition of unparalleled customer satisfaction through the delivery of timely, cost-effective, and high-quality products and services. Located in Northeastern Pennsylvania, near Stroudsburg, Scranton and Wilkes-Barre, the depot is readily accessible to major East Coast cities, interstate highways, railways, international airports, colleges and universities.
